Project: Long Island Solar Farm - Brookhaven National Labs
Developer: BP Solar & Long Island Power Authority (LIPA)
Designer: Centerpoint Engineering, Inc. - Mechanicsburg PA
Geotechnical Engineer: NTH Consultants, Ltd - Bethlehem PA
Contractor-Installer: WillBros Hawkeye, LLC - Hauppauge, NY

DANBRO PROJECT PROFILE

TEL: 215-271-7700 FAX: 215-271-7701 WWW.DANBRO.COM

Brookhaven National Laboratories in Upton NY will soon be home to the largest solar farm in the eastern United States. The 200-acre Long Island Solar Farm being constructed by BP Solar and the Long Island Power Authority on Brookhaven Lab's campus, will produce 32 megawatts of power when complete - enough to power about 4,500 homes. The Brookhaven solar plant is being installed by BP Solar's construction contractor Hawkeye, LLC, of Hauppauge, New York, part of Houston-based Willbros Group, Inc. A total of 164,000 solar panels will make up the array, and are supported on 13,000 6-inch diameter Chance Helical Pipe Piles.
